2. Select Austin Presbyterian Theological Seminary from the Library Locator.
3. Search or browse the e-books from the main menu. Note: if you are off campus you may be prompted to login with your Seminary credentials.

## Download an e-book on your computer (to read offline):

*\*Note: you can also view, read, and print or email pages of an e-book online on your computer without downloading it. See instructions below\**

1. Download Adobe Digital Editions to your personal computer or laptop (FREE):  
<http://www.adobe.com/products/digital-editions/download.html>
2. **OPTIONAL:** Create an Adobe ID & authorize your computer through Adobe Digital Editions (if you don't have an Adobe ID you can also check "I want to authorize my computer without an ID" from the authorization screen):  
[www.adobe.com/products/digital-editions/ebookcreateid.html](http://www.adobe.com/products/digital-editions/ebookcreateid.html)

*You will use Adobe Digital Editions to download and read e-books on your computer, or to transfer them to certain e-reader devices. You will use the Adobe ID to authorize your computer as well as your other devices. This lets the computer access the DRM settings on the e-books and verifies that you are the person who checked them out. You only need to authorize each device once.*

3. Create a My EBSCOhost account:  
[http://support.ebscohost.com/knowledge\\_base/detail.php?topic=&id=1427&page=1](http://support.ebscohost.com/knowledge_base/detail.php?topic=&id=1427&page=1)

*You may already have one of these if you have logged in to save articles and citations through the ATLA Religion Database, which uses EBSCOhost. When you sign into your My EBSCOhost account from any EBSCO screen, you will be able to download e-books, save citations to books and articles, add annotations and notes to books and articles, and much more. You can either do this ahead of time or wait to be prompted the first time you download an e-book.*
